

## 2026 Webinar Series

### **Overview**

The National Fabry Disease Foundation (NFDF) is excited to announce a refresh to its virtual education meeting series in 2026!

In this series, we will be diving into the Fabry disease literature and reviewing recent medical publications. We've invited some of our favorite Fabry disease experts to provide a patient-level overview of a notable publication (aka article) in their field of specialty.

Each virtual meeting will be approximately 60 minutes. Invited speakers will spend about 30 minutes breaking down the key points of the publication, followed by time for questions and discussion. Registration information will be provided on our webinar website: <https://sites.google.com/fabrydisease.org/nfdfwebinars/home>

### **Meetings planned thus far:**

Not all of our desired speakers are confirmed yet, but we are hopeful.

**1. Patient-reported experience with Fabry disease and its management in the real-world setting: results from a double-blind, cross-sectional survey of 280 respondents (Berry 2024)**

- Date: March 9th at 7:00pm ET
- Speaker: Lisa Berry, MS, CGC
- Article Link: <https://pubmed.ncbi.nlm.nih.gov/38605390/>

**2. Stroke in Fabry Disease: Identification of Risk Factors for Stroke in a Large Single-Centre Cohort (Moreno-Martinez 2025)**

- Date: March 23rd at 7:00pm ET
- Speaker: Nicolas Abreu, MD
- Article Link: <https://pubmed.ncbi.nlm.nih.gov/41201212/>

**3. Fabry disease in females: organ involvement and clinical outcomes compared with the general population (Hopkin 2025)**

- TBD
- Speakers: Robert Hopkin, MD and Dawn Laney, MS, CGC
- Article Link: <https://pubmed.ncbi.nlm.nih.gov/40804726/>

**4. Impact of cardiac magnetic resonance on the clinical management of patients with Fabry disease: Data from the CMR Italian research and Clinical nEtworK for Fabry disease (CIRCLE-FD) (Camporeale 2026)**

- Date: April 27th at 7:00pm ET
- Speaker: John Jefferies, MD
- Article Link: <https://pubmed.ncbi.nlm.nih.gov/41202892/>
- The NFDF will provide access to this paywalled publication

**5. The use and performance of lyso-Gb3 for the diagnosis and monitoring of Fabry disease: A systematic literature review (Ramaswami 2025)**

- Date: May 5th at 7:00pm ET
- Speaker: Uma Ramaswami, MD
- Article Link: <https://pubmed.ncbi.nlm.nih.gov/40328031/>

**6. Unraveling the Hidden Burden of Gastrointestinal and Nutritional Challenges in Children with Fabry Disease: A Systematic Review with Meta-Analysis (Dargenio 2025)**

- Date: June 8th at 7:00pm ET (tentative date)
- Speaker: Claire Zar-Kessler, MD TBD
- Article Link: <https://pubmed.ncbi.nlm.nih.gov/40218952/>

**7. Clinical outcomes among young patients with Fabry disease who initiated agalsidase beta treatment before 30 years of age: An analysis from the Fabry Registry (Hopkin 2023)**

- Date: TBD
- Speaker: Robert Hopkin, MD
- Article Link: <https://pubmed.ncbi.nlm.nih.gov/36709533/>

**8. Characterizing pain in patients with Fabry disease: findings from a web-based cross-sectional survey in the US (Wallace 2025)**

- Date: TBD
- Speaker: Eric Wallace, MD
- Article Link: <https://pubmed.ncbi.nlm.nih.gov/40524234/>
